7 reasons for Seven Bridges!

1. FaceTime with Clients!

What other place can you get over four hours of facetime with clients? Talk business while finding things in common, developing trust, and forging relationships. Not to mention meeting on the golf course offers a scenic, unique, and a relaxing business setting.

2. Learn More about your clients and staff

You can sure learn a lot about someone on the golf course! Are they honest? Are they enjoyable to be around? How do they carry themselves outside of the office? All very important when establishing business relationships.

3. Share the love of the game

A common interest in the game of golf alone with an employee or client can quickly take the relationship to the next level. Enjoying a common interest lets your guard down and opens the door to casual yet candid business conversations during your round!

4. Guests in from out of town?

A game of golf is always a great way to welcome a client or colleague into town. Make a great first impression and strengthen your business relationships right away.

5. Perfect Gifting

You don't even have to be there, give the gift of golf! Treating clients and employees to golf can pay great dividends! Rewarding your employees will let them know you appreciate their hard work and you will get the most out of your staff. Giving the gift of golf to a client is always viewed as a generous and thoughtful offer.

6. Networking

Is there a better place to network than on the golf course? I think not! Four hours of uninterrupted time with clients in a beautiful setting, you can't beat it!
